Mentor a VE Class

Give our students real-world insights by serving as a classroom mentor at one of the [450+ schools](#) near you.

Mentoring a class offers volunteers a meaningful opportunity to help shape and develop the VE business, guide and refine student work (business plans, marketing plans, and presentation skills). You can mentor a class as an individual or as a corporate team.

As a class mentor, you have the opportunity for a continuing engagement where you will be able to observe student development over the course of a semester or a year. Your time commitment can be arranged with the teacher.

VE provides onsite or online training to individuals and corporate teams who mentor a class.
