About In-N-Outfit

Item Description:

Insta-change is a product that provides the service of automatically changing your clothes.

Item Functions and Features:

This product will take the place of your closet; there is no longer the need for storing all your clothes! All it requires is you to scan your clothes and it will be inputted to your clothing database. Once your items are loaded, you simply need to select the garments you desire to wear, step into the booth, and your outfit will be changed! The tactile holographic materialization effect uploads the clothing from the database and applies it onto your body.

This product also provides you with an image of what you will look like in the outfit prior to the service being provided.

Mission Statement:

Our mission is to revolutionize the clothing industry by altering the way we select, manufacture, and wear our outfits. The goal is to make changing clothes easier than ever before, with our newly designed Insta-change technology.

Your New Best Friend

No one understands you better than your smart booth. The booth features an integrated touch pad that makes it easy to scroll through and view your clothing. Additionally, the touch pad provides you with your fashion assistant, records your favorite outfits and suggests new options tailored to your style. These clothing suggestions are connected to the weather conditions and geography of your residence, assuring the perfect collection of clothing for every day, week, and even season! This automated organizer also allows you to rate the suggested outfits to better pinpoint your flavor.

Getting Started

Your Insta-Change booth will greet you by voice recognition. Upon receiving your Insta-Change, you will be required to customize your settings. Coco, the AI inside the booth, will verbally guide you through the process. An example of a feature is syncing your calendar to your social networking sites.

Models & Plans

Monthly plan of 4 accounts per Insta-Change booth: \$19.99

Each extra account: \$9.99

Standard

8GB of memory

Price: \$149.99

Additional Accessories

Insta-Go:

If you're always busy, an Insta-Go is the In-N-Outfit accessory for you. When you aren't near an Insta-Change booth, it can still be possible to use the automatic changing technology by having the Insta-Go. An Insta-Go is a handheld modulator that allows you to log in and access your personal clothing database. With a push of a button, you can change your outfit in a flash!

Price: \$49.99

Order: #001006

Insta-Scan:

Once you have purchased an Insta-Change booth, all the clothing you will own will be from participating digital lines, but don't worry about your old clothes! They can be digitalized as well! The Insta-Scan will allow you to scan your physical clothing and upload it into your database.

Price: \$49.99

Order: #001007

The Exterior

Design Options and Customization:

Our Insta-Change booth comes with a variety of designs patterns and colorful spectrums to fit your personality, style and taste. We customize and tailor each booth to make the Insta-Change experience unique and individual to your personal lifestyle.
