## Check it out!

The new company logo was revamped for this year's cycle. Instead of the ordinary light blue and white, which was last year's design, the colors were changed to a more luxurious gold and black. The only real remains of the original logo were the wings at the side of the golden shield and the lock in the center. Everything else has been updated and a big thank you is in order to the Design Department for creating such a beautiful logo and the new slogan:

*Protecting what's  
important to  
YOU!*

## Employee of the Month: Cheng Zhu

A tradition around any office, the honorary Employee of the Month for October was Cheng Zhu, a worker in the Accounting department. His hard work and efforts clearly paid off; he received a free pass, which allows him to be excused from business attire once and his personal selection of a movie DVD. "I felt like my hard work wasn't being recognized, but I guess it did pay off!" said the enthusiastic Cheng after receiving his certificate.

## What are you thankful for?

Here at Safeguard Security, Inc., we want everyone to feel like family, so we decided to ask around what family means to our employees, especially during the up coming holiday season.

### Marlene Martinez, H.R. associate

“Family to me means an unbreakable bond. I believe in the quote ‘blood is thicker than water,’ so my family means the world to me. I know for a fact that nothing can ever get in between the bond I share with my siblings and parents, even if we go years without talking, I know they’ll be there for me like I am for them.”

### Janice Kumar, Design associate

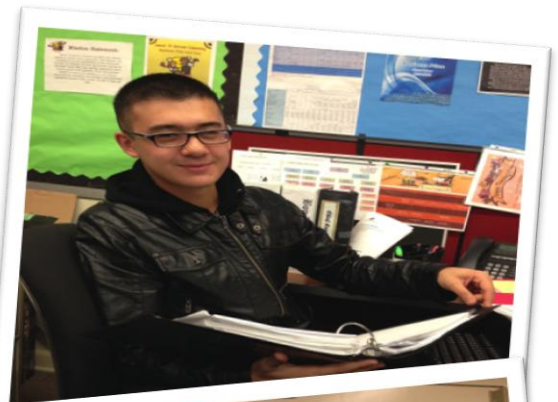

“During the holidays, family means so much more. It’s a time that brings people closer to each other, friends and neighbors included. It’s so rare to see neighbors that even know each other’s names now, so connecting with them and bringing them into your family is important to me during the holidays.”

### Jasur Akramov, CEO

“Family is such a hard thing to define, but family to me means a strong net of supporters, sort of like your biggest fans. They support you and love you unconditionally, and that’s what’s so important in this age and time. We turn on the news and we see so much tragedy, but where are the good old stories of families helping each other and those around them?”

### Kelly Zheng, Accounting VP

“The core of every person is family, because family is what lays your foundation and builds you up with values, beliefs and morals. Of course your beliefs change over time, but it’s family that creates your center. That’s why family is important during the holidays, to remind each and every one of us what’s important to our center, what we should be giving thanks for and hoping for in the future.”
